

LED-driver with integrated individual lamp monitoring for non-maintained, maintained lighting with seperate BUS-line. Permanent monitoring of maintained luminaires. In case of an interruption of the data line the luminaires are turned on independent of the operating status! Complying with international standards for safety and working, electromagnetic compatibility and interference resistance for high function safety. LED output dimmable continuously in mains operation. For connection to INOTEC-NEA-monitoring systems.
Replaceable power supply unit for easier maintenance and servicing.
